

BDO Manufacturing & Engineering

Helping clients overcome the challenges facing the manufacturing and engineering
Industries

Manufacturing and engineering are priority industries for BDO and this focus enables us to tailor the wide range of services we offer and apply our skills and knowledge to help clients achieve their objectives.

We provide real solutions to industry issues, utilising our capabilities in everything from sector specific [tax](#), [audit](#) and [business advice](#) to [patent box](#), [research and development](#) claims and [acquisition opportunities](#) to help our clients grow in the UK and overseas.

We understand the key issues affecting UK manufacturing and engineering, but we also focus on some specific sub-sectors to improve our knowledge and our service to clients. These include:

- Aerospace
- Automotive
- Building Products
- Chemicals
- Food & Drink
- Marine
- Test and Measurement
- Technology
